Dreer's Famous American Asters

Dreer's Superb Late Branching Asters.

The finest Asters for late August and September blooming.

The plants form strong, branching bushes, 2 to 2½ feet high-bearing on long strong stems their handsome Chrysanthemum-like flowers, which, under ordinary cultivation average 5 inches across. The form of the flowers, together with the length of the stems, places them at the head of Asters for cutting. They come into bloom from two to three weeks after the average type, usually being at their best during September, and filling in the gap between the general run of Asters and Chrysanthemums. We offer eight beautiful and distinct colors, viz.

	Tr. pkt.	Oz.
Azure Blue. A rich deep lavender	25	\$1 00
Pure White. Extra fine stock	25	1 00
Shell Pink. An exquisite shade	25	1 00
Rose Pink. A very desirable color	25	1 00
Deep Rose. Rich and brilliant	25	1 00
Deep Purple. Royal deep blue	25	1 00
Lavender. A pale grayish-lavender	25	1 00
Crimson. Very rich	25	1 00
Finest Mixed. All the colors	25	75

Dreer's "Peerless Pink" Aster.

This grand Aster may be briefly described as a glorified late branching shell-pink or Mary Semple. It has the same strong, sturdy habit of growth; comes into bloom a little earlier, bears freely almost globular flowers rarely under 4 inches across and frequently over 5 inches. The color is rich shell-pink, similar in shade but more decided than the late branching. The centre petals are prettily incurved while the wide outer petals reflex making a most artistic and finely finished flower and stands cut longer than any other. 50 cts. per trade pkt.; \$2.50 per oz.

Crego's Giant Comet Asters.

Magnificent fluffy flowers, averaging over 5 inches across, with long strong stems; the finest of this type. Comes into bloom in August, continuing well into September, and, unlike most of the Comet sorts, stands when cut and is a good flower to ship. We offer three colors, our own saving, of the highest quality.

	Tr. pkt.	Oz.
Shell-pink	40	\$2 00
Snow-white	40	2 00
Purple	40	2 00

DREER'S PEERLESS PINK ASTER

Astermums.

This strain of Giant Comet Asters were first exhibited at the Florist's Convention in 1912, and their immense size and Chrysanthemum-like appearance created quite a sensation. The stock we offer was grown from seed procured from the originator and has been, we believe, improved under our care—the colors which were somewhat mixed being carefully trued up. They closely resemble Crego's Giant, but come into bloom fully two weeks' earlier; we offer three colors.

Pink	50	2 50
Lavender	50	2 50

Dreer's High-Grade IMPORTED ASTERS

We offer in our Wholesale Catalogue a fine line of Imported Asters, from the most reliable sources. The two sorts offered below are the most important to the florist.

Early Wonder Asters.

This is the earliest Aster in cultivation, being in full bloom when Queen of the Market is only in bud, frequently coming into bloom in late June. Flowers larger than Queen of the Market, borne on long, strong stems. Very valuable for cutting.

DREER'S LARGE-FLOWERING PHLOX DRUMMONDI

Dreer's Superb Petunias

Our Riverton grown strain of Double and Single Fringed Petunia have long been celebrated as the best on the market. We keep continually culling out and hybridizing and thus maintain the high standard. We frequently test stocks from the world's best growers and can say, without fear of contradiction, that our own strain is by far the best to be had at any price.

Note.—We would especially call the attention of every florist who grows Double Petunias from seed that all the smallest and weakest seedlings should be saved, as they usually produce the finest double flowers. The same is true of the singles, the strong seedlings being inclined to "weediness."

Large-flowering Petunias.

Dreer's Superb Double Fringed. Our own unrivaled strain. Every seed saved at Riverton. Mixed colors. 75 cts. per 500 seeds; \$1.50 per 1000 seeds.

Double Fringed Imported. Seeds are saved by one of the foremost European growers; the best that can be had abroad. \$1.00 per 1000 seeds.

Dreer's Superb Single Fringed. All our own saving from the finest large fringed flowers. Mixed colors. 50 cts. per tr. pkt.; \$1.00 per $\frac{1}{16}$ oz.; \$1.50 per $\frac{1}{8}$ oz.

Dreer's Fine Sweet Peas

We only offer the very best varieties. Those marked * are the kinds best suited for florists for cutting.

Orchid-flowered Sweet Peas.

This type is distinguished from the standard sorts by the extraordinary size of their flowers and by the standard being crinkled and wavy. They usually bear four blossoms on a stem, and are as easy to grow as the commonest sorts. Owing to their being shy seeders they will always be higher in price than the standard sorts.

DREER'S SELECT ROSES

Select Two-year-old stock for your Retail Trade

The Roses which we here offer are, with few exceptions, field grown stock either American grown or plants that have been imported from England and Ireland.

These plants are all potted up during December and January, stored in cold houses and frames, so that they break away naturally in spring, making this the best possible stock for selling to the retail customer.

The prices noted are for strong plants in 5 and 6-inch pots (according to the growth of the variety) for delivery during April and May, and while we will make shipments earlier if requested, we prefer to book orders for these months only.

New Hybrid-Tea Roses of 1913 and 1914.

For Descriptions of Novelties Offered Below, See Our Garden Book for 1914.

All are Supplied in Strong Two-Year-Old Budded Plants.

For Standard Varieties of Hybrid-Teas see foot of opposite page

MME. EDOUARD HERIOT OR THE DAILY MAIL ROSE

Mme. Edouard Heriot or The Daily Mail Rose.

(Pernet-Ducher.)

Winner of the Gold Cup which was offered by the *Daily Mail* of London for the Best New Rose exhibited at the International Horticultural Exhibition held in London, England, May, 1912, and to be known as the Daily Mail Rose.

M. Pernet-Ducher describes it as a "strong vigorous grower with bronze foliage, the buds coral-red shaded with yellow at the base, the open flowers of medium size, semi-double, are of a superb coral-red, shaded with yellow and bright rosy-scarlet passing to shrimp-red." An American friend of Pernet-Ducher who had the pleasure of testing it in this country says of it: "A wonderful Rose, the bud is long, slender and pointed, the color is like sunshine on a copper-red metal."

Price, \$1.50 each.

George Dickson (Dickson & Sons).

Messrs. Dickson describe this as the best exhibition Rose that they ever raised, with flowers quite 5 inches in diameter, of globular shape, in color a velvety black-scarlet crimson with brilliant scarlet reflexed tips. In our own trial beds we have been more than pleased with this grand Rose, its only fault is that it has not the perpetual flowering habit looked for in a Hybrid Tea Rose, but when one thinks of the brilliant gorgeous display of flowers which it furnishes during June, equalled by no other high colored variety, this one point can be overlooked. Awarded a Gold Medal 1912.

The World's Best Cannas

We try out all new introductions for at least two years before endorsing or rejecting same, and if they are not improvements over existing sorts, or decided novelties, we do not offer them to you.

The following varieties of recent introduction stand out prominently as the best of their respective types and colors and you will make no mistake in accepting our endorsement of the ten varieties here offered.

SPECIAL. Note the reduction in price of the three leaders—Hungaria, the ideal pink, Gustav Gumpper, yellow, and Mrs. Alfred F. Conard, popular salmon-pink.

Extra Choice Sorts.

Gustav Gumpper. Another season's trial strengthens us in again recommending this as the ideal rich yellow bedding Canna; the flowers of good size are held well above the foliage, the fine trusses always clean looking; in habit of growth very uniform; color a rich golden-yellow; a shade that has been missing heretofore and which can be seen as far as the eye will carry. 3½ to 4 feet. 20 cts. each; \$1.25 per doz.; \$7.00 per 100; \$65.00 per 1000.

Hungaria. The ideal pink bedding Canna, flowers large in good sized trusses, produced early, freely and continuously, in color not unlike that of the Paul Neyron Rose. Compared to all other pink varieties it possesses a softness and refinement not found in any other sort. 3 to 3½ feet. 20 cts. each; \$1.50 per doz.; \$10.00 per 100; \$90.00 per 1000.

Louis Reverchon. This was one of the best dark leaved red flowering varieties in our trials during the past three years; a block of about 2,000 plants attracted great attention; the flowers are very large, of a cochineal-red color, very freely produced on vigorous plants with light bronze foliage. 4½ to 5 feet. 10 cts. each; \$1.00 per doz.; \$8.00 per 100; \$75.00 per 1000.

Meteor. There are two varieties of Cannas being sold under the name of Meteor, one a German introduction which can be bought very cheap. We offer the American variety and this is the Canna that you want, as it is the best red flowering Canna in commerce. 30 cts. each; \$3.00 per doz.; \$20.00 per 100.

Mrs. Alfred F. Conard. A most remarkable variety, with exquisite salmon-pink flowers of largest size in erect and abundantly furnished heads, so freely produced as to keep a superb showing of bloom for months above the rich green foliage. 4 feet. 20 cts. each; \$1.50 per doz.; \$12.00 per 100; \$100.00 per 1000.

Maros. The best white bedder; in color, about the same as Mont Blanc Improved, but it produces three or four times as many flowers, and as the old flowers shed themselves, it always presents a clean and tidy appearance. Maros, in our fields, attracted great attention, the rows forming great broad, clean bands of white. Its habit is perfect, filling every requirement of a tip-top bedder. 15 cts. each; \$1.50 per doz.; \$10.00 per 100; \$90.00 per 1000.

Rosea Gigantea. Extra large flowers, borne in such abundance that the mass of color on each plant is truly amazing; individual petals are 2½ inches across; a deep, rich rose, almost a coral-carmine. 10 cts. each; 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1000.

Uhlberg. Entirely distinct and one of the freest flowering varieties we have ever grown, the flowers expand very full and are of a soft rosy-carmine; the throat of the flower is of a creamy yellow, and the edges of the petals, which are slightly crimped, are also pale yellow. This variety attracted much attention in our trials. 3 feet. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Undine Unquestionably the best of its type, and we heartily recommend it either for massing or as single specimens in the border. Its growth is dwarf and graceful, with green foliage, and its flowers, which are produced very freely, are of a bright orange-scarlet broadly edged with golden-yellow; a most satisfactory variety in every way. 3½ feet. 25 cts. each; \$2.50 per doz.; \$15.00 per 100.

William Bates. A splendid free flowering pure yellow Canna that has attracted much attention, the size of its flowers, of its trusses, its habit of growth are all that can be desired; a variety that will become a great favorite. 5 feet. 25 cts. each; \$2.50 per doz.; \$20.00 per 100.

The varieties Meteor and Uhlberg will be supplied in growing plants, all others in dormant roots. 25 at hundred rates; 250 or more at thousand rates.

We will supply 1 each of the 10 varieties for \$2.00, or 6 each of the 10 varieties for \$8.00.

ANCHUSA ITALICA, DROPMORE VARIETY

JAPANESE ANEMONE

ARTEMISIA LACTIFLORA

The New Anchusas.

The Improved Varieties of Italian Alkenet or Bugloss.

The colored plate in our Garden Book conveys a good idea of the beautiful colors of these wonderfully improved Anchusas, which have proven most valuable additions to our limited list of blue flowering hardy perennials, and particularly so as they flower from May to July, a time when this color is only sparingly represented in the hardy border.

The habit of the plants while strong and vigorous is not at all coarse, they form many branched specimens from 3 to 5 feet high, each branch of which is terminated by a large, graceful, pyramidal spike of blue flowers.

Anemone Japonica (Japanese Windflower).

Every florist growing flowers for his own retail sales should grow a block of these beautiful late summer and fall flowering Anemones, which, besides making an attractive display, furnish an abundance of useful cut flowers which are admired by everyone. The plants we offer are in a growing condition in 3-inch pots, and not being checked in transplanting will give quick results.

Artemisia Lactiflora.

A Beautiful Flowering Artemisia.

This comparatively new introduction from China is a most effective flowering plant, with erect stems $3\frac{1}{2}$ to $4\frac{1}{2}$ feet high, clothed with elegant-cut dark green foliage and terminated by panicles of Hawthorn-scented, creamy-white Spiræa-like light and graceful flowers. It is at its best from the latter part of August to the end of September, and is particularly valuable on this account, being unlike any other plant in bloom at that time. \$1.50 per doz.; \$10.00 per 100.

Aster Grandiflorus.

Not a new variety but one of the finest of all and distinct in character and flower from all others. The flowers, of a lovely dark bluish-violet, frequently measure 2 inches in diameter. It is the latest flowering variety—October and November—and by lifting the plants can be flowered in connection with Chrysanthemums, where its effect is very beautiful. 25 cts. each; \$2.50 per doz.; \$20.00 per 100.

Astilbe Arendsi.

This new type is the result of crossing *A. Davidii* with *A. Japonica compacta*, *astiboides* and *Thunbergii*. The plants are of very vigorous growth, $2\frac{1}{2}$ to 4 feet high, producing many-branched, feathered heads of flowers. They prefer a half-shady, moist position in any ordinary garden soil.

Ceres. Delicate, light rose with silvery sheen.

Juno. Strong upright plumes of deep violet rose.

Salmon Queen. Beautiful salmon pink.

Venus. Deep violet rose.

Vesta. Light lilac rose.

White Pearl. Dense pyramidal plumes of silvery white.

Eulalia Japonica Zebrina Stricta.

(The Improved Zebra Grass.)

Identical with the well-known hardy Zebra Grass, excepting in habit of growth, which is more erect, and on account of which the transverse variegation of yellow and green appears more pronounced. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Funkia Undulata Media Picta.

We sell many thousands of this pretty variegated Funkia every season to florists who start them in pots in which shape it makes an attractive free-selling spring plant. We have an immense home-grown stock and can offer good values at 85 cents, \$1.25 and \$1.50 per dozen; \$6.00, \$8.00 and \$10.00 per 100, according to size.

NEW GIANT
MARSHMALLOW**Gypsophila Paniculata Fl. Pl.**

(Double flowering Baby's Breath.)

This valuable recent introduction is already a firm favorite with many of the leading professional floral decorators, who quickly recognized its value for use with other cut flowers.

The pretty little double rosette-like flowers are produced during August and September in large branching panicles, three to three and a half feet high, and are not only valuable for cutting for immediate use, but can be cut and dried, retaining their beauty for months, and in addition to its great value for cutting it is a most desirable plant in any hardy border. \$2.00 per doz.; \$15.00 per 100.

New Giant-Flowering Marshmallows (Hibiscus).

A wonderfully improved form of our greatly admired native Marshmallow or Rosemallow, in which not only the colors have been greatly intensified but in which flowers of enormous size, frequently 10 to 12 inches in diameter, have been developed.

These plants can be highly recommended for all kinds of plantings, they appear to be equally at home in all positions, having the same vigor in dry and wet ground and are perfectly hardy, they grow from 5 to 8 feet high and are very floriferous, blooming from early in July to late in Autumn. We offer three distinct colors, Red, Pink and White in strong two year old roots. 30 cts. each; \$3.00 per doz.; \$20.00 per 100.

Primula Veris Superba.

A giant, large-flowered form of the English Cowslip. A splendid subject to pot up for early spring sales. It appeals to everyone and is a ready seller. \$1.50 per dozen; \$10.00 per 100.

Pyrethrum Hybridum Fl. Pl.

A splendid lot of varieties in the various shades of Pink, Red, Crimson and White; 4 inch pot grown plants that are not sea-sick. \$2.50 per dozen; \$20.00 per 100.

A PLANTING OF JAPANESE IRIS AT OUR NURSERIES, RIVERTON, N. J.

Dreer's Imperial Japanese Iris

These magnificent Iris are among the most beautiful of our hardy early-summer flowering plants and are destined to become as popular as the hardy Phlox and Paeonies. They are valuable not only as decorative flowering subjects for the garden, but are also very useful as cut flowers.

Our stock of Japanese Iris is very extensive in a splendid assortment of home-grown varieties and can be relied upon for being true to name and description. We supply these in strong liberal divisions of a most satisfactory planting size.

GERMAN IRIS

Iris Pumila Hybrida.

A type which originated by crossing the dwarf early flowering Pumila Iris with the German varieties, they are among the earliest flowering and are very showy, growing from 10 to 12 inches high.
Cyanea. Rich royal purple, with blackish shadings.
Excelsa. A splendid pale lemon-yellow.
Schneekuppe. A large showy pure white.
 \$1.50 per doz.; \$10.00 per 100.

Iris Interregna.

An interesting new type, the result of crossing *I. germanica* with *I. pumila hybrida*, and for which there promises to be a great future. They bloom earlier than the German Iris, and the flowers combine perfection of form with large size and clear and decided colors. The foliage is dwarf, and maintains its freshness throughout the season. The flower stems are almost 18 inches high, holding the flowers well above the foliage.

Helge. Light citron, with pearl-colored centre. A beautiful soft shade.

Ingeborg. Pure white; flowers 5 inches deep, with petals 2 inches wide. A grand flower.

Walhalla. Standards rosy-lavender; falls velvety claret-red. A most distinct and beautifully formed flower.

20 cts. each; \$2.00 per doz.; \$15.00 per 100.

HARDY PHLOXES—One of Our Leading Specialties

We are the largest growers of Perennial Phlox in the world, having this season over a half million field grown plants in stock. The collection offered below embraces every known color in this gorgeous race of Summer flowering plants, and we are prepared to furnish many of the rarer as well as the older standard varieties in large quantities at a low uniform price.

Note.—Special Price on Phlox for Orders Received before March 15th

The Phloxes here offered are all one year old field-grown plants. It is customary for us to pot these into three-inch pots after the middle of March for the Spring trade. To save this extra handling we will allow a special discount of twenty per cent. (20%) on all orders received before March 15th for immediate delivery, after which date our regular low prices will prevail.

New Varieties of Phlox

Asia. One of the most valuable recent introductions, a delicate shade of mauve, with a crimson-carmine eye.

Braga. Mauve-rose, more or less suffused with salmon; large white eye; a distinct and pleasing color combination.

Europa. A white variety with very decided crimson-carmine eye; the individual flowers as well as the trusses are very large.

Elizabeth Campbell. Very bright salmon-pink, with lighter shadings and dark crimson eye; a new and much-wanted shade.

Frau Anton Buchner. The finest white variety yet introduced, having the largest truss and individual flower; of dwarf habit.

Hervor. This is the finest variety of its color; a bright but soft rose-pink, with a large white eye.

Manzelbrunner. A bright soft pink, with a large white eye.

Rynstrom. An improved form of the popular variety Pantheon; fine for massing, of a Paul Neyron Rose color.

Rosenberg. Bright reddish-violet, with blood-red eye, large truss and individual flowers as large as a silver dollar.

Rheinlander. A beautiful salmon-pink with flowers and trusses of immense size, the color of the flower is intensified by a very decided eye of a deep claret-red. 30 cts. each; \$3.00 per doz.; \$20.00 per 100.

W. C. Egan. One of the best and largest flowering varieties in our collection, panicles of immense size, of a delicate pleasing soft shade of lilac which is illuminated by a large bright solferino-red eye. 30 cts. each; \$3.00 per doz.; \$20.00 per 100.

Widar. A splendid improvement on Edmond Rostand; in color a light reddish-violet, with very large white centre, which intensifies the color.

Tragedie. Deep brilliant carmine with blood-red eye. \$1.50 per doz.; \$10.00 per 100.

Price. Any of the above varieties, except where noted, \$1.00 per doz.; \$6.00 per 100; \$50.00 per 1000.

General Collection of Hardy Phlox

Antonin Mercie (Medium). Light ground color, upper half of each petal deeply suffused bluish-lilac, large white halo.

Price. Any of the above General Collection, except where noted, 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1000.

Early Flowering Hardy Phloxes (P. Suffruticosa).

While this type does not contain the rich colors which are a feature of the other well-known sorts, it is invaluable on account of coming into bloom in May, or fully six weeks earlier than the others, and continuing throughout the season.

Miss Lingard. The grand, free-flowering early white.

Hercules. Bright rosy lilac.

Mrs. Dalrymple. White shaded rose; scarlet eye.

Ninon. Deep rosy lilac.

\$1.00 per doz.; \$7.00 per 100; \$60.00 per 1000.

Dreer's Famous American Asters

All our American Asters have been grown under our own supervision and we know that the quality in every case is unsurpassed.

DREER'S SUPERB LATE BRANCHING ASTER

Dreer's Superb Late Branching Asters.

This superb strain has long been one of our leading specialties, extraordinary care being given each season to the selection of the very finest specimens for stock seed, resulting in a strain that is acknowledged by the leading growers as unsurpassed.

The plants form strong, branching bushes, 2 to 2½ feet high, bearing on long, strong stems their handsome Chrysanthemum-like flowers, which, under ordinary cultivation, average over 5 inches across. The form of the flowers, together with the length of the stems, places them at the head of Asters for cutting. They come into bloom from two to three weeks after the average type, usually being at their best during September, and filling in the gap between the general run of Asters and Chrysanthemums. We offer eight beautiful and distinct colors.

The Celebrated Astermums.

This strain of Giant Comet Asters was first exhibited at the Florists' Convention in 1912, and their immense size and Chrysanthemum-like appearance created quite a sensation. The stock we offer was grown from seed procured from the originator and has been, we believe, improved under our care, the colors, which were somewhat mixed, being carefully trued up. They closely resemble Crego's Giant, but come into bloom fully two weeks earlier. We offer three colors.

	Trade pkt.	Oz.
White. Pure snow white	50	\$2 50
Pink. Lively rose pink	50	2 50
Lavender. Rich, deep lavender	50	2 50

Dreer's "Pink Beauty" Aster.

A magnificent cut-flower variety, in bloom from early August until well on in September; 24 to 30 inches high; flowers average 4 inches across, on long, strong stems. Color a delicate blush pink, and pronounced by experts to be the finest pink midseason sort yet introduced. 50 cts. per trade pkt.; \$3.00 per oz.

ASTERMUM

Dreer's Famous American Asters—Continued

Crego's Giant Comet Asters.

Magnificent fluffy flowers, averaging over 5 inches across, with long strong stems, the finest of this type. Comes into bloom in August, continuing well into September, and, unlike most of the Comet sorts, stands when cut and is a good flower to ship. We offer three colors, our own saving, of the highest quality.

	Trade pkt.	Oz.
Shell-pink	40	\$2 00
Snow-white	40	2 00
Purple	40	2 00

Daybreak Aster.

Of symmetrical growth; attains a height of 18 inches and produces during August perfect globe shaped flowers of a delicate pink tint. 40 cts. per trade pkt.; \$2.00 per oz.

Purity Aster.

Identical in every way to Daybreak, but of pure glistening white. 40 cts. per trade pkt.; \$2.00 per oz.

DREER'S PEERLESS PINK ASTER

Dreer's "Peerless Pink" Aster.

This grand Aster may be briefly described as a glorified late branching shell-pink or Mary Semple. It has the same strong, sturdy habit of growth; comes into bloom a little earlier, bears freely almost globular flowers rarely under 4 inches across and frequently over 5 inches. The color is rich shell-pink, similar in shade, but more decided than the late branching. The centre petals are prettily incurved, while the wide outer petals reflex, making a most artistic and finely finished flower and stands cut longer than any other. 50 cts. per trade pkt.; \$2.50 per oz.

Electric White Aster.

A most distinct and distinguished looking flower, being made up of long thread-like quilled petals of snowy whiteness, borne on long, strong wiry stems, and rarely under 5 inches across. 30 cts. per trade pkt.; \$1.50 per oz.

Lavender Gem Aster.

One of the most beautiful Asters. Of Comet type, with large, artistic loosely-arranged flowers of the most charming shade of lavender imaginable. 50 cts. per trade pkt.; \$2.50 per oz.

CREGO'S GIANT ASTER

Dreer's Famous American Asters—Continued

MIKADO ASTER

Mikado Asters.

Very similar to Crego's Giant but dwarfier and earlier. Flowers of largest size rarely under 5 inches across, borne on good long stems, we offer two colors.

	Trade pkt.	Oz.
Mikado Pink or Rochester.	30	\$1 50
Mikado White.	30	1 50

Giant Branching Comet Asters.

Finest Mixed. Long stems and fine
for cutting 25 1 00

White Fleece Aster.

Large and most perfect flowers, 5 inches and over across, formed into a plummy globe of glisten-white. Blooms in August. 40 cts. per trade pkt.; \$2.00 per oz.

Dreer's "Crimson Giant" Aster.

A superb new late-branching variety, with perfect double flowers of rich rosy crimson, full of fire. Fine for cutting, showing up well under artificial light. 30 cts. per trade pkt.; \$1.50 per oz.

King Asters.

The "King" Asters form a distinct class or type and have many sterling qualities to recommend them to lovers of fine Asters. They are of strong, sturdy habit, growing fully 18 inches high, and bear through August and September very large double blossoms, the petals of which are more or less quilled, forming a very attractive flower

Pink King. An attractive shade of delicate shell-pink, a color that is always in demand for cutting. 50 cts. per trade pkt.; \$3.00 per oz.

Rose King. A beautiful brilliant rose variety, a color that is quite distinct from any other and a shade that is very popular for cutting. 30 cts. per trade pkt.; \$1.50 per oz.

Violet King. This is the original of this type and is a pleasing soft shade of violet, of strong free growth, always doing well. 25 cts. per trade pkt.; \$1.00 per oz.

DREER'S CRIMSON GIANT ASTER

Dreer's High-grade Imported Asters

The varieties offered below are all imported, procured from the most reliable specialists, our aim in every instance being to get the finest quality, regardless of price. For full descriptions see our Garden Book or Retail Catalogue.

Queen of the Market Asters.

A first-class early-flowering Aster, coming into flower in July, or fully three weeks in advance of the general run; of branching habit; flowers of good size and borne on long stems, making them exceedingly valuable for cutting; excellent for growing under glass.

DREER'S SELECT LARGE-FLOWERING PHLOX DRUMMONDI

DREER'S SUPERB SINGLE FRINGED PETUNIA

DREER'S SUPERB DOUBLE FRINGED PETUNIA

Dreer's Superb Petunias.

Our Riverton grown strain of Double and Single Fringed Petunias have long been celebrated as the best on the market. We keep continually culling out and hybridizing and thus maintain the high standard. We frequently test stocks from the world's best growers and can say, without fear of contradiction, that our own strain is by far the best to be had at any price.

Note.—We would especially call the attention of every florist who grows Double Petunias from seed that all the smallest and weakest seedlings should be saved, as they usually produce the finest double flowers. The same is true of the singles, the strong seedlings being inclined to "weediness."

Dreer's Superb Double Fringed. Our own unrivalled strain. Every seed saved at Riverton. Mixed colors. 75 cts. per 500 seeds; \$1.50 per 1000 seeds.

Double Fringed Imported. Seeds are saved by one of the foremost European growers; the best that can be had abroad. \$1.00 per 1000 seeds.

Dreer's Fine Sweet Peas

We only offer here the very best varieties for Florists for cutting.

Orchid-flowered Sweet Peas.

This type is distinguished from the standard sorts by the extraordinary size of their flowers and by the standard being crinkled and wavy. They usually bear four blossoms on a stem, and are as easy to grow as the commonest sorts. Owing to their being shy seeders they will always be higher in price than the standard sorts.

DAHLIAS OF SPECIAL MERIT

Dreer's White

New Quilled Show Dahlia

Dreer's White

This new quilled Show Dahlia is probably the most important introduction of the season, not only on account of its color, form and size, but also on account of its remarkable free-flowering habit. In our trial grounds the past summer it bloomed as profusely as A. D. Livoni. Its flowers are of large size, frequently measuring 6 inches across and are borne on stout, stiff stems, nodding lightly, and while it resembles in form in a general way the popular Grand Duke Alexis, it is of a much more refined and perfect build, and never shows a trace of any color, always being of a pure glistening white. It was shown at the annual exhibition of the New England Dahlia Society, where it received an Honorary Award, the highest award given. The Florists Exchange, reporting on this exhibition, says: "Among notable exhibits perhaps the most striking was that of Henry A. Dreer, Inc., Philadelphia, who exhibited a lot of their new Dahlia Dreer's White, and which were magnificent flowers of a pure white."

Strong green plants 50c each, \$5.00 per dozen,
\$35.00 per 100

White Pompon Dahlia "Guiding Star or White Aster"

This is unquestionably the most useful Dahlia for cutting for made-up work, being superior to Double White Petunias, which are now so extensively grown. It is not new (we have known it for nearly a quarter of a century), but growers of Dahlia roots did not find it a profitable variety to grow as a root proposition, and it was almost lost to cultivation. We have succeeded in working up a large stock of green plants, which, if planted under the most ordinary conditions, will, from the middle of July and throughout the season, produce a mass of flowers which rarely exceed two inches in diameter, of the purest white color. The petals being deeply cleft, give it a refined and graceful appearance. You will find it one of the most profitable open-ground summer cut flowers.

Strong green plants 75c per dozen, \$5.00 per 100,
\$40.00 per 1000

Jack Rose

New Decorative Dahlia Jack Rose

Unquestionably the most important addition to the decorative class of Dahlias for many years. In color a brilliant crimson-red, rich and glowing, and which has suggested its name Jack Rose on account of the close approach in color to the popular Gen. Jacqueminot Rose, or as it is more commonly known, the Jack Rose. The habit of the plant is all that can be desired for garden decoration, it being of a uniform compact habit of growth, producing its flowers with the greatest freedom; these are borne on erect stout stems and always come perfect, a green centre or an open flower never having been seen, and under the most ordinary cultivation they will measure five inches or more in diameter. As a cut flower its rich color, together with its long stiff stems which hold the flower erect, will at once secure it a place, in fact the comparatively few flowers placed on the market the past season were quickly disposed of at highest prices. Awarded a certificate of merit by the Pennsylvania Horticultural Society October 20th.

Strong green plants 50c each, \$5.00 per dozen,
\$35.00 per 100

New Decorative Dahlia Delice

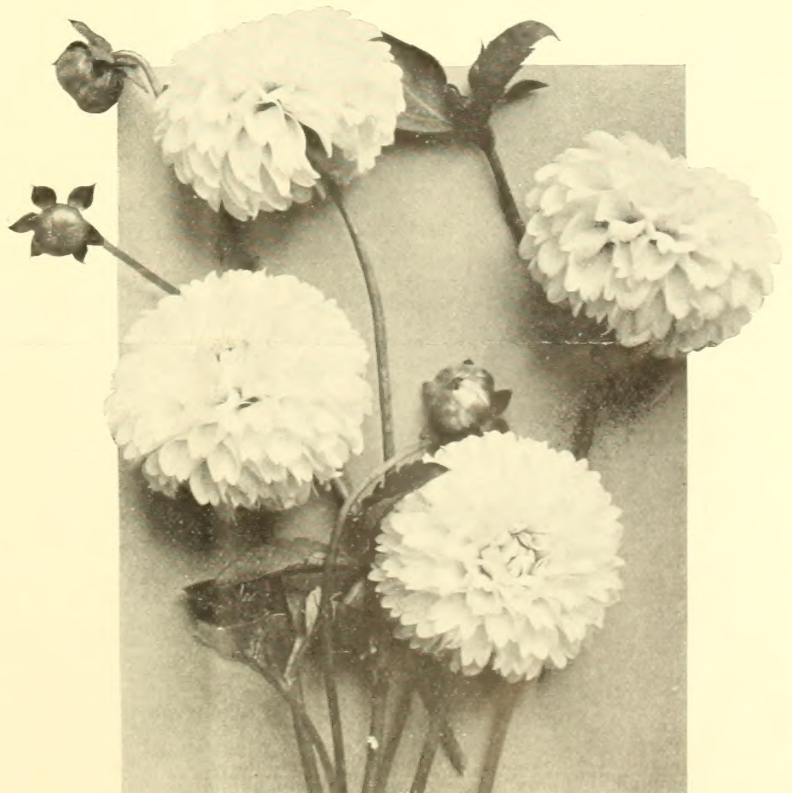

A variety that appeals to every one on account of its distinct color, which is of a lively crimson-pink, entirely different from any other variety in cultivation; its habit is perfect, of strong erect growth, holding its flowers well above the foliage on stiff stems. As a cut flower it outlasts after being cut any other variety known to us.

Strong green plants 50c each, \$5.00 per dozen,
\$35.00 per 100

New Single Dahlia Jack

A handsome new single variety, entirely distinct, and one of the most brilliant and gayest in color that we have ever sent out; it is of a brilliant fiery scarlet color with the base of the petals distinctly overlaid with golden yellow, particularly pleasing under artificial light. The flowers are large, with broad, overlapping recurved petals. The plant is of medium height, very branching, and a wonderfully profuse bloomer; the flowers are borne on long, stiff stems, and are valuable as cut flowers. Awarded Certificate of Merit American Institute, New York, September, 1908.

Strong green plants 35c each, \$3.50 per dozen,
\$25.00 per 100
